

Claims Navigation & Support Process

At Donner & Associates, our value is most evident when a claim occurs. This document outlines the standard procedure for handling home insurance claims in Mexico.

Step 1: Immediate Reporting

In the event of a loss (fire, theft, weather damage), the policyholder must report the incident immediately. Under Mexican law, the scene should remain undisturbed until the official **Adjuster** arrives.

Step 2: The Role of the Adjuster

The Adjuster is an independent party appointed by the insurance company to evaluate the cause and extent of the damage. They will request specific documentation:

- Copy of the Insurance Policy.
- Copy of the Fideicomiso or Property Deed.
- Identification (Passport/Residency Card).
- Detailed inventory of damaged items.

Step 3: Our Coordination

Donner & Associates provides a **Claims Coordinator** who acts as a bilingual liaison between the expat client and the Spanish-speaking adjuster. We ensure that the interpretation of policy terms is fair and that the settlement process moves efficiently.

Step 4: Settlement

Once the adjuster's report is finalized and the claim is approved, the payout is typically issued via bank transfer or check. We assist in verifying that the settlement covers the **Replacement Value** as outlined in the policy.
